

# Why Choose MagVenture®?

**Are you a mental health professional who is considering TMS treatment options for your patients with depression who have failed medication therapy?** Or perhaps you already own a TMS system and are considering another? MagVenture has partnered with clinicians since our first FDA clearance in 2015; we create solutions that help them improve patients' lives and benefit their practice as well. You have choices when it comes to TMS systems. So why choose us?

## Flexibility.

- **Versatile and scalable system.** Modular system allows you to choose your options and scale as desired. Add-on options include additional coils, neuronavigation, onboard electrophysiological monitoring, FDA cleared robotic coil positioning, and a patient data management system, any of which can be added on at any point after the original purchase.
  - **User-defined pre-set protocols.** Enjoy broad control over the complete parameter set for procedures.
  - **Broad range of FDA cleared procedures:** MDD\* 10Hz 19 or 37 min, MDD Theta Burst, and OCD\*\* 20Hz protocols give you the ability to treat more patients.
  - **Liquid-coiled coils.** No overheating or waiting for the system to cool down between patients. Treat patients back-to-back all day long.
- 

## Ease of use.

- **No tools required to switch coils.** Save time and hassle; exchange your coils easily in less than 15 seconds without tools.
  - **Weightless coil positioning.** Our Flow Arm ergonomic coil positioning system allows any provider, including petite users, to set up patients quickly with minimal effort.
  - **Cloud-based patient data management system.** Access HIPAA compliant, secure data from unlimited number of connected TMS systems located anywhere in the world via the internet.
- 

## Reputation and Efficacy.

- **Proven and durable technology.** MagVenture has been manufacturing TMS machines since 1992; we have the largest worldwide installation base with more than 2500 systems globally and a subsidiary or distributor in 55 countries.
  - **Effectiveness.** The MagVenture system demonstrates equivalent Safety and Efficacy to any other TMS manufacturer in Randomized Controlled Trials as well as in naturalistic studies.
  - **Excellent reputation.** Key Opinion Leaders in the clinical TMS space choose MagVenture including many recent and past presidents of the Clinical TMS Society.
  - **Research collaboration.** MagVenture systems are the choice of many TMS researchers including those at the forefront of neuroimaging studies working to reveal how to better guide TMS.
  - **Continuous improvement.** Our R&D and Medical Affairs employ ongoing efforts to improve products and expand indications for use so the value of your system will continue to grow.
- 

## Patient satisfaction.

- **More comfortable.** The long pulse duration of MagVenture systems have been reported by patients to deliver a softer pulse sensation.<sup>1</sup>
- **Less confining.** The patient is not subject to an enclosed headpiece which can induce anxiety.
- **Quiet system.** The MagVenture system is the quietest TMS device<sup>1</sup> and the only device shown at 100% output to produce clicking (sound pressure level) below the OSHA standard for hearing protection (5 cm from coil).<sup>2</sup>

## The Bottom Line.

We provide a flexible, robust system that will benefit your patients and practice. Why commit to a new modality that limits your flexibility or requires on-going payments back to the manufacturer?

## Support.

- **High customer satisfaction.** We are committed to your satisfaction and are happy to provide references for our customer support.
- **Responsive technical support.** Replacement of malfunctioning hardware is typically with 24 hours of determination of failure.
- **Three US service locations.** We have physical locations with inventory and tech support depots in Los Angeles, CA, Dallas, TX, and Alpharetta, GA so you get support ASAP.
- **Onsite installation and training.** Annual onsite re-training is also included with Platinum Warranty coverage so office turn-over is not a problem. Refer to a MagVenture representative for details on our warranty options.

---

## Value.

- **No "pay per use" fee.** We have no ongoing subscription requirements for operation.
- **Extended and Platinum warranty options.** Moderate to higher-volume practices will benefit from this coverage of all on-going costs so there is virtually no risk to you.
- **Lowest overall cost of operation.** The MDD+OCD system, over a 10-year lifetime with constant top tier Platinum Warranty costs less than \$1,600 per month to operate, including coverage of all cost of operation and cost of original equipment purchase. Recoup your investment quickly.
- **Multiple purchase options.** One time purchase, lease, rental, and third party financed purchasing options are available to suit your needs.
